Project: Inspect a Home

Wow! If you are getting a home inspection do yourself a huge favor and hire Sherlock Home Inspections. My inspector arrived early with a separate pest inspection company. The pest inspector and the rep from Sherlock was so thorough. Todd & Jamie were a pleasure...I HIGHLY recommend Sherlock Home Inspections. Happy house hunting :0)

Project: Inspect a Home

Comments: I called for an inspection on thursday night and they did the inspection the very next morning! Home inspector was very professional, friendly and thorough. He took plenty of pictures and explained everything in detail and gave suggestions for some simple do-it-yourself minor repairs. The pest control person (from an outside company) forgot to inspect the irrigation while he was trying to sell us a pest-control plan, but he did come back and complete. Took a little while for the official home inspection report to get emailed. Overall, we were very pleased, and the price was very reasonable. Canceled inspection w/another co. and saved $100!

Project: Inspect a Home

Comments: Prompt response to my email and questions. We live out of state and looking for a vacation home and wanted someone to give us an unbiased opinion since we never actually physically saw the house. A very thorough and informative inspection was performed and the report was in my hands in less than 12 hours. Thanks guys you were awesome and save us a lot of money and heartache. We will use them again on the next house we hope to buy and absolutely would recommend Sherlock Home Inspection.
